

GREGORY ASKS SQUARE DEAL FOR ALENS

Atty. Gen. Emphasizes Fair
Treatment Coming to
Law-Abiding Germans.

A square deal for the German citizen who must be registered as an alien enemy, but is law-abiding and loyal, was urged last night in a statement by Attorney General Gregory, head of the Department of Justice.

The Attorney General emphasizes that the registration, which will begin tomorrow, does not mean that every enemy alien is under suspicion, and he assures the American people that they are in compliance with the President's proclamation of April 6, treating the Germans "with all such friendliness as may be compatible with loyalty and allegiance to the United States."

"The majority of Germans," says the Attorney General's statement, "who have taken up their residence in the United States, but, for one reason or another, have neglected or failed to become American citizens, are undoubtedly willing to be loyal and law-abiding."

"In the interest of public safety, however, they must be registered, and the alien enemy regulations. The mere fact that a man is registered as an alien enemy should not be taken as a reason for discrimination against him by his employer or by the community in which he lives."

"The alien enemy laws and regulations will be rigidly and aggressively enforced and the penalties prescribed for their violation imposed without exception. But no possible good will come from unnecessary hardships or discriminations inflicted by private citizens upon these alien enemies who remain law-abiding and loyal. Their work contributes to the resources of the country and, therefore, to the strength of the country in this war."

HOG ISLAND YARD TO HAVE SHAKE-UP

Rear Admiral Bowles to Assume
Charge of Revision.

Rear Admiral Bowles, chief of the division of steel ship construction of the Emergency Fleet Corporation, recently named assistant general manager of the fleet to take charge of the Hog Island, Philadelphia, shipyard, will extend here to the Philadelphia headquarters next Wednesday.

With Admiral Bowles, as his chief assistant, will be Capt. C. S. Bookwalter, now district officer for the fleet at New York. In the Admiral's absence from Washington, his division will be under his chief assistant here, D. H. Cox.

The new assistant general manager, whose offices will be in the Medical Arts Building, 136 South Sixteenth street, Philadelphia, will have charge of the three government shipyards of the Emergency Fleet Corporation, at Newark, the Merchants' Shipbuilding Company, at Bristol, Pa., and the American International Company, at Hog Island. The latter is now under investigation in the Senate, recently was investigated by the Shipping Board, and is the subject of a bill of the new assistant general manager for revision of its methods, which have been found extravagant.

Selection of officers and discussion of plans for special war work will be features of the meeting of the Iowa Society tomorrow evening at 8 o'clock at the New Elbitt House.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lot time, no trouble. I have nothing to sell, but I can give you information about how you may find complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 812, Madison avenue, New York, N. Y., I will tell you all about it and show it to any other who are ruptured—700 men have a life and stop the misery of rupture and the worry and danger of an operation.—A. V.

Another Shipment of Bibles Arrived

THE WASHINGTON HERALD
BIBLE COUPON
A MAGNIFICENT BIBLE

SELF-PRONOUNCING TEXT—LARGE, CLEAR TYPE.
BOUND IN GENUINE FRENCH MOROCCO, ABSOLUTELY FLEXIBLE.
RED-UNDER-GOLD EDGES, WITH NEW SERIES OF HELPS, ILLUSTRATIONS AND MAPS.

Bring this Coupon to THE HERALD Office, with \$1.39 (which covers cost of packing, transportation from factory, checking, clerk hire and other expense items), and this Bible will be delivered to you. If the Bible is to be mailed, send 15 cents extra for postage.

COLDS

To get the very best results take Dr. Humphrey's "Seventy-sevens" at the first sneeze or shiver. "Seventy-sevens" breaks up Colds that hang on—Grip. All Drug Stores.

ARGENTINA'S ATTACHES QUIT HUN CAPITALS

Break with Teutonic Powers
Presaged by Buenos
Ayres Action.

The State Department yesterday received official notification that the Argentine military attaches had been withdrawn from Berlin and Vienna. Capt. Kinkelen, an Argentinean officer on special duty in Berlin, was also ordered to return. The officers are required to report at Buenos Aires within three months.

The Argentine Embassy refused official comment on the incident, but from quarters familiar with the situation in Buenos Aires there came word that the move definitely presages the long expected break between the two governments. It is presumed to have been decided upon with the torpedoing of a ship in the Mediterranean while flying the Argentine flag.

It is also commented upon here that the move has been made just before the arrival in Buenos Aires of Romulo S. Naon, Ambassador to the United States, and ardent advocate of a break with Germany. Dr. Naon was summoned to Buenos Aires for a conference with his government over the German situation and it is known that he is prepared to urge a break with Germany on the strongest of grounds, independent of the developments of the last few days.

Announcement that the Dutch ships chartered by the United States will be used to carry wheat from Argentina was also greeted as a substantial indication of the course Argentina will follow. Argentina has the greatest wheat crop in its history and it had been reported here that much of it had been pledged to German agents. Agreement to ship the wheat to the United States is regarded as indicating that the South American republic will soon effect a commercial break with Germany as drastic as the diplomatic break already indicated.

TRAINING CAMP SICK LISTED BY RED CROSS

Organization Will Furnish Information
on Army Cantonnments.

Exact information concerning the condition of sick and injured soldiers in training camps in this country is to be transmitted to their relatives by a special Red Cross service.

In compliance with a request from Secretary of War Baker, the big war relief organization has announced its intention of extending to the cantonnments of this country the hospital information service that it maintains in France.

Red Cross representatives will have access to the daily lists of admissions and evacuations from the military hospitals and be permitted to talk to the sick. They will be expected to keep families informed of the condition and progress of men in hospitals and also to write letters for those unable to write themselves.

While a service of this sort has been maintained among the American expeditionary force in France since their arrival, it was not realized until recently that there was pressing need of workers in training camps here to keep the families of sick soldiers in personal touch with their boys.

David Parker Buried; Was Civil War Hero

Funeral services for David Parker, long-time employee of the United States Coast and Geodetic Survey, were held Friday afternoon at the residence, 1109 East Capitol street. Interment was in the Arlington National Cemetery.

A Civil War Veteran, Mr. Parker figured in the hands-to-hand fighting when Pittsfield's men charged the Union soldiers at Gettysburg. He was severely wounded in this battle while carrying a flag. He was a Confederate officer, who died in his arms.

Mr. Parker who was 77 years old, resided in Washington since 1882. He was a Mason and a member of the G. A. R. He is survived by his widow and two sons.

German Strikers Have Opportunity to Grasp Most Perfect of Ruling Powers

The German Bolsheviks—
They're striking now all over the "Fatherland." What will they do if they prevail?

Victor Morgan answers that question in today's article in his series on "WHAT IS GOING ON IN GERMANY TODAY."

The German Bolsheviks, he says, will find the MOST PERFECTLY ORGANIZED NATION in history to try their experiments on—their theories of abolition of poverty and institution of a world rule of brotherly love.

Furthermore, some of the Bolsheviks poison the Kaiser's military shot into Russia is now creeping back into Germany and Austria-Hungary to plague them.

But read—
By VICTOR MORGAN.
Editor of the Cleveland Press.
Specially Written for The Washington Herald.
(Copyright, 1918.)

If Bolshevism should come into control in Germany—
It would find no vast disorganization as in Russia; industry at a standstill; commerce and transportation in a tangle.

It would find ready to hand the most nearly perfect organization and concentration of production and distribution ever in this world—more perfect perhaps, than even Karl Marx dreamed of as possible.

Nation Controls Industry.

Every line of production in manufacturing and in agriculture is either operated directly by the government or under so close a supervision as to mean the same thing. The same is true of transportation and all other elements in distribution.

In short, the Germans today, through their government, are manufacturing and farming and distributing the products thereof as a nation, and not as individuals.

This wonderful machine has its conception and its development in evil—in the lust for power and world conquest. Every turn of its wheels for hate, bloodshed and aggression.

It is, however, exactly the machine that the Bolshevik and his American twin, the Industrial Worker of the World, have been telling us is the one agency that can abolish poverty and make brotherly love a world practice.

The Bolshevik has maintained that with a little adjustment this machine, now operated in the interests of the few, in Germany, could be made to work for the toilers.

Certainly the machine would be in the hands of the most methodical and orderly people in the world. As a new order of society, Bolshevism would be in Germany a test under the most favorable of conditions.

Retributive Justice.

IF BOLSHÉVISM SHOULD OVERTHROW THE KAISER, THAT EVENT WOULD STAND OUT IN WORLD HISTORY AS A PERFECT INSTANCE OF RETRIBUTIVE JUSTICE.

For the German autocracy is largely responsible for the rise of the Bolshevik to power in Russia. German agents preached the doctrine unceasingly in all the large centers of Russia. The Kaiser gave safe conduct to the exile Lenin that he might go from Switzerland to Russia to help the work along. Germany believed the Bolsheviks least capable of all elements in Russia to carry on the war or to set up stable government. The Kaiser expected to be able to work his will with the Bolshevik in the matter of annexations.

Austrian and Hungarian regiments on the eastern front were supplied with the outfit in definite system of propaganda for the "poisoning" of the Russian troops. In the fraternization between Russian and German troops that resulted from the Kaiser's forces preached unceasingly the laying down of arms and the setting up of a workers' government.

The Kaiser's men succeeded in Russia. But recent events have indicated that the process, they, too, became poisoned. The first manifestation of this came in the almost open refusal of the Austrian and Hungarian troops to move from the East to the West which the big drive which the Kaiser had in mind in December.

If Bolshevism were good for Russia, would it not also be good for Austria and Hungary, these troops asked?

Anyhow, waiting to see what would happen under Bolshevism in Russia.

At present, however, the government taxes away most of the profits. Thus the finances of Germany run in a circle. The government takes from every man, woman and child and gives the money back to them in the form of profits and wages. Round and round, the money goes, and the money keeps moving. What the government does not take for taxes, it takes in exchange for war bonds. The war bond issues up to the time aggregate about \$6,000,000,000, or something less than \$6,000,000,000.

(Continued Tomorrow.)

Trains of motor trucks soon will run between the Marine Corps training station at Quantico, Va., and Philadelphia, to bring needed supplies to the camp.

Between 20 and 30 trucks will be sent from the camp, probably Monday. The route will be from the camp to this city, thence to Baltimore, Chester, Pa., and Philadelphia. They will return the following day with their loads. A motorcade detachment will accompany the trucks, to carry messages for help if needed.

Reserve Exhausted.

Supplies at the camp on the Potomac have become practically exhausted. It is said. Officers in charge of the camp deny there is any shortage of supplies there. They admit, however, that supplies needed at the camp have been long overdue, held up by the congestion on the railroads between here and Philadelphia.

Men at the camp have been forced to do without sugar for their coffee, a non-commissioned officer said yesterday. Other supplies were low, too, he added.

No official recommendation has been made urging establishment of truck trains to bring supplies here as yet, Maj. Roosevelt, who originated the plan, said yesterday.

"You never heard of the Marine Corps being short of anything," an officer of the camp said yesterday. "I don't know what the army, but it never happens to us."

CATHOLIC LENTEN
RULES ARE CHANGED

Vatican Shows Disposition to Co-
operate with Food Saving Plan.

Lenten regulations governing Catholics in the use of food received here yesterday, show considerable changes over regulations issued in past years.

Saturday has been substituted for Wednesday as the day on which meat is to be abstained, while both fish and shellfish may be used at the same meal, the new rules say.

The change in the regulations was made by the Holy See, the conservation efforts of the United States Food Administration in establishing meatless and wheatless days and meals. The changes apply to all Lenten seasons for the duration of the war.

Flesh meat may be used after noon on Holy Saturday, however, heretofore a day of strict abstinence.

Men serving in the army and navy are permitted to eat meat on all days except Ash Wednesday, Christmas Eve, Good Friday, the vigil of the Assumption and the forenoon of Holy Saturday.

Profits of Krupp.

If a revolution comes in Germany, soldiers must be on the side of the revolutionists. Even so, it is likely that a considerable part of the army would continue to be loyal to the Kaiser and civil war and bloodshed would result.

Despite the almost perfect mobilization of industry in Germany, profits have not been abolished. The gun-making Krupp, for instance, since the war has declared dividends as high as 36 per cent.

At present, however, the government taxes away most of the profits. Thus the finances of Germany run in a circle. The government takes from every man, woman and child and gives the money back to them in the form of profits and wages. Round and round, the money goes, and the money keeps moving.
